

Eniko Oros-Szebenyi dr.

Frontend developer

The transition from medicine to technology was a big journey, at the same time, it was incredibly interesting. I discovered that the skills I learned in medical school, such as analytical thinking, problem-solving, communication and teamwork, were transferable and essential for success in my new career.

Skills

- Angular
- React
- JavaScript(ES6)
- Modern CSS/HTML5
- TypeScript/RxJS
- REST API
- UI libraries
- Jira, Confluence
- UML/ER Diagrams

Education

2008-2014

Semmelweis University

- Doctor of Medicine

Language

- Hungarian
- English
- Serbian

Experience

Angular developer

Apr 2023 - Jun 2023

Cubix | Budapest | Freelance

I've built well-designed and efficient codes by using the best software development practices.

I created Angular-based web applications, like the Pandemic information website where Users could log in and search pandemic data in Middle-Europe.

My instructor was an expert and professional from an industry-leading tech company.

Things I focused learning on:TypeScript/RxJS/Observable/Services/Router/Auth/REST API/UI libraries/Modules/Directives/Pipes

[Projects on GitHub](#)

JavaScript developer

Dec 2022 - Feb 2023

Webuni | Budapest | Freelance

I developed a responsive Weather app with public APIs, where User could find climate data from all over the world.

These challenges can help me grow my professional knowledge and expertise.

Things I attended to learning on: DOM API/ES6 features/Moduls/Promises/Async/await/Fetch/REST API/Modern CSS(SCSS)/HTML5

[Projects on GitHub](#)

Java developer

Marc 2020 - Apr 2021

A&K Academy | Budapest | Freelance

I took part in multiple software development projects that they were organizing.

I studied the concepts of algorithmic decomposition, database management, and the OOP principles.

Main topics: Git/Java SE14 /Generics/Collection frameworks/MySQL/File-handling

Certifications

Angular and TypeScript training (BMI-VIK certification)

Jun 2023

Modern JavaScript training (BMI-VIK certification)

Jan 2023

Google IT Support (Coursera)

Nov 2022

Java Developer (A&K Academy)

Apr 2020
