Experience

Angular developer
Cubix Institute of Technology | Budapest

2022 - 2023

I 've written well-designed and efficient code using the best software development practices.
I created full-stack web applications with database management.
I integrated authentications into the projects, and designed user-friendly pages.

JavaScript developer
Webuni | Budapest

2022 - 2023

I developed web applications with backend technologies.
I created reusable custom elements and responsive layouts.
My mentor was a quality assured by major tech institutions.
I completed a course and got a license.

Java developer
A&K Academy | Budapest

2020 - 2021

I took part in multiple software development projects that they were organizing.
I studied the concepts of algorithmic decomposition, database management, and the OOP principles.
