Enikő Oros-Szebenyi dr.
Software developer

The transition from medicine to technology was a big adventure, but at the same time, it was incredibly interesting. I'm familiar with creating user interfaces, developing databases, and implementing new features. I am motivated to join a group of seasoned and experienced developers.

Relevant projects

- In **2023** I've written well-designed and efficient applications using the best software development practices.
- My projects are quality-assured by major tech institutions and companies.
- I created user-friendly web applications: Employee manager, Registration App, Epidemiology-statistic app
- Technologies used: **JavaScript**, **TypeScript**, **RxJS**, **REST-API**, **Authentication**, **NodeJS-Express.js**, **noSQL**

Core competencies

Problem-solving capability:
- The skills I learned in medical school, such as critical thinking, problem-solving, collaboration, and multitasking, were transferable in my new career.

Self-motivation:
- After finishing a basic Java course, I have the ability to motivate myself and keep on the path to constant learning and discovery.

Experience

Angular developer
2023- Present
Cubix Institute of Technology - online training center
- I developed a full-stack Angular application, where users could register/log in with their accounts and manage employees' data.
- Technologies used: Angular 13, **Authentication**, **Router,** NoSQL database, Nodejs

JavaScript developer
2022 - 2023
Webuni online - training center
- One of my portfolio projects is a weather app where users can add capital cities to their list and see their current weather data.
- Made with **Webpack**, **Web API-s**, **SCSS**, **Flexbox**

Junior Java developer
2020 - 2021
A&K Academy - online training center
- I took part in multiple software development projects that they were organizing.
- I studied the concepts of algorithmic decomposition, database management, and the OOP principles.

Doctor of dental medicine
2014 - 2022
Private Health Companies
- I worked in private health sectors/startup companies during the last eight years. I collaborated with medical teams and took care of many satisfied patients. I am also employed in an international environment.

Reference

,, She was always looking for opportunities to learn something new. She took part in multiple software development projects that we were organizing. It was a pleasure to teach her during the Java course.''

Andras Markos, Senior Software Engineer at Comrad Medical Systems

Certifications

- Angular and TypeScript training (BMI-VIK certification)   *2023*
- Advanced JavaScript course (CodeBerry)   *2023*
- Modern JavaScript training (BMI-VIK certification)   *2022*
- Google IT Support (Coursera)   *2022*
- Junior Java Developer (A&K Academy)   *2020*

Education

- Semmelweis University   *2008-2014*
- Doctor of Dental medicine

Languages

- Hungarian
- English
- Serbian
