I am a highly passionate individual who thrives upon seeking new challenges through my career as a junior developer. My initial years of studying in the developing industry push me to go further in discovering more things in it. Of course, I am motivated to join a group of seasoned and experienced Frontend developers in the industry respectively.

Experience

Junior Angular developer at Cubix Institute of Technology
Apr 2023 - Jun 2023

- I 've wrote well-designed and efficient code by using the best software development practices

- HTML5 , CSS/SCSS
- OOP concepts,Clean Coding
- Git/GitHub,Jira,Confluence,UML/ER Diagrams

- Problem Solving
- Web performance optimization
- Analytical and Research Skills
- Agile software development

My Projects

- Quiz application (Angular)
- Gym registration app (Angular)
- Product manager (Angular)
- Responsive weather app (Webpack,JS)

- Covid-statistic (Webpack,JS)
- Meditation app (Native JS)
- Task manager (Native JS)

Education

Semmelweis University of Budapest   *Sept 2008 - May 2014*

- Doctor of Medicine - Dentistry
- Master of Medicine - Microscopic dentistry

Certifications

Angular and TypeScript training (BMI-VIK certification)	*Jun 2023*
Modern JavaScript training (BMI-VIK certification)	*Jan 2023*
Google IT Support (Coursera)	*Nov 2022*
Junior Java Developer (A&K Academy)	*Apr 2020*

Reference

Enikő was a student in our 1-year-long Java course. She was always looking for opportunities to learn something new. She is familiar with the concepts of algorithmic decomposition and the OOP principles. She took part in multiple software development projects that we were organizing. She was responsible for the backend area in one of the projects. She also learned about database management and the basics of web technologies. It was a pleasure to teach her during the Java course.

Markos András senior software engineer at Comrad Medical Systems

Languages

- **Hungarian** : native proficiency
- **English**: elementary proficiency
- **Serbian**: elementary proficiency
